IdeaTop Serie 100.
The working station
designed to meet the
operator's needs.

It is a line realized for those who wish to use a real workstation and not simply a trolley.

Each model is an ergonomic system, compact and handy that makes it possible to operate comfortably in every working environment.

The trolleys support the operators and allow them to respect the cleaning protocols in a quick way, with extreme precision and according to high hygiene standards.

Everything in **order**
and **safe.**

Order is fundamental for the professional operators, since it allows them to manage efficiently the working procedures, thus saving time and efforts.

Safety is granted thanks to the presence of drawers with blocking system.

Ideal management of the load.

IdeaTop Serie 100 **offers great loading capacity in reduced dimensions.**

Made in Italy

Bag holder equipment

- 2 integrated rubber handle holders
- 4 hooks for accessories
- Plastic device for waste collection separation

Drawers

- Opening on both sides
